

Organisation Information for LSHTM's Online Careers Fair, Wednesday 21st January 2026, 12:00-14:00pm

ORGANISATION	DESCRIPTION
Adelphi Values PROVE	<p>Adelphi Values PROVE™ provides market access and HEOR support throughout the product lifecycle from early strategic landscaping, through evidence generation, health economics and impactful value communication.</p>
Ashanti Development	<p>Ashanti Development (AD) is a charity which was set up in 2005, when London-based Ghanaians asked their friends and neighbours for help to improve the lives of people in their home villages.</p> <p>We are looking for healthcare/allied professionals to volunteer at Mampong Government Hospital and/or one of the five community clinics (including a dedicated eye clinic) which we have built and/or with Sekyere Central public health directorate. The charity also has other work strands including water and sanitation (WASH), education and livelihood support (including farm support and microcredit).</p> <p>Mampong Hospital serves 6 local authorities and has 98 beds in the general wing and a further 56 elsewhere including the Maternity wing. There are daily outpatient clinics, with specialist clinics for HIV and Sickle cell, and an emergency department. It is short of staff in all departments and much of the day-to-day care is provided by physician assistants and nurses. Malaria is the most common indication for admission followed by anaemia, pneumonia, diarrhoea, typhoid, hypertension and diabetes.</p> <p>Ashanti Development's headquarters are in the village of Gyetiase, some 3km distant from Mampong. The village has changed little over the centuries but now has electricity and internet connection. The community and the AD Ghanaian team of Nicholas, Christobel and Martha welcome volunteers & do all they can to help.</p> <p>http://ashantidevelopment.org</p>
CEPA Ltd	<p>CEPA is a global, economic and financial policy consulting business. We advise both private and public sector clients on issues where economics, finance and public policy overlap. Our projects span across the energy, water, transport, global health, communications and infrastructure sectors, with work in developed and emerging markets.</p> <p>CEPA's Global Health practice contributes to the effectiveness and sustainability of development aid in the health sector. We combine public policy, health economics and evaluation expertise towards improving the quality and use of evidence for strategic, policy and programmatic planning and implementation. Over the last 15 years, we have gained a wealth of knowledge and expertise across a number of health areas which we apply at both global and country levels. These include: epidemics and pandemics (e.g. COVID-19, cholera) and other communicable diseases such as HIV/AIDS, malaria, tuberculosis and hepatitis C; health and community</p>

	<p>systems strengthening; immunisation; maternal and child health; and sexual and reproductive health. We also work in a number of cross-cutting areas such as health policy and governance, health financing, health data and information systems, commodity market dynamics, universal health coverage and climate change and health. Together, our breadth of experience has given us the knowledge and skills in a range of areas, especially to conduct complex evaluations, provide high-level technical advisory and strategy support and undertake health impact modelling.</p>
Christian Medical Fellowship	<p>CMF Global team supports those seeking to work in global health, offering courses from time to time, along with 1:1 conversations, promoting job opportunities on website etc We have had a room for the last few years at the virtual fair. We also took one intern from this fair.</p>
Costello Medical	<p>Costello Medical is a rapidly growing global healthcare agency specialising in medical communications, market access, and health economic and outcomes research. We work with a wide range of clients, including the industry's most successful pharmaceutical and medical technology companies, patient and public health bodies, and charitable organisations. We have been listed in the Top 100 Best Companies to Work For list since 2017 and were proud to receive B Corporation accreditation in 2022. Learn more about us, our work, and our mission on our website: https://www.costellomedical.com/</p>
Doctors with Africa Cuamm	<p>Founded in 1950, Doctors with Africa Cuamm is an Italian NGO working to improve the health of vulnerable communities in Sub-Saharan Africa. The NGO is currently active in 9 countries: Angola, Central African Republic, Ethiopia, Ivory Coast, Mozambique, Sierra Leone, South Sudan, Tanzania, Uganda.</p> <p>International and national staff work side by side on the front line to strengthen local health systems, particularly in resource-limited settings where individual commitment and contribution can truly make a difference.</p> <p>The NGO focuses on the most vulnerable population groups and provides support to public and non-profit hospitals, local districts, nursing and midwifery schools, medical faculties.</p>
Genesis Analytics	<p>Genesis Analytics is an impact firm founded, incorporated and headquartered in Africa. In the Health Practice, we help to strengthen and support sustainable, country-owned health systems that can deliver positive, equitable health outcomes.</p> <p>We bring deep knowledge and understanding of local contexts and combine this with technical and operational excellence. Our focus is on Africa and other countries with growing young populations across Asia and the Middle East.</p> <p>Our technical areas of expertise include:</p> <p>Infectious diseases and pandemic preparedness</p> <p>Reproductive, maternal child health and nutrition</p>

	<p>Health financing and health systems optimisation</p> <p>Digital health and data transformation</p> <p>We achieve impact at scale by working with partners to identify challenges, co-create solutions and support their implementations. We do so using a mix of analytics tools and methods, and capacity strengthening approaches, to support the implementation of cost-effective solutions. We bring deep knowledge and understanding of local contexts and combine this with technical and operational excellence. Our focus is on Africa and other countries with growing young populations across Asia and the Middle East. Most importantly, we put people first and accept that progress is not linear. It requires us to be flexible and responsive to local needs and to meet the moment.</p>
International Organisation for Migration (IOM) - UN Migration Agency	<p>Established in 1951, IOM is part of the United Nations System and stands as the leading intergovernmental organization in the field of migration. With 175 member states, a further 8 states holding observer status and offices in 171 countries, IOM is dedicated to promoting humane and orderly migration for the benefit of all. It does so by providing support to migrants across the world, developing effective responses to the shifting dynamics of migration and providing advice on migration policy and practice. The organization collaborates with governmental, intergovernmental and non-governmental partners to improve the resilience of people on the move, particularly those in situations of vulnerability. It also works closely with governments to manage all forms of mobility, and their impacts. This work includes operations in some of the most complex emergency settings in the world. IOM's work is focused on the following three objectives: Saving lives and protecting people on the move: To fulfill this objective, IOM puts the safety, dignity and protection of people first in the most challenging crisis response contexts in the world. Driving solutions to displacement: In response to this aim, IOM endeavors to reduce the risks and impacts of climate change, environmental degradation, conflict and instability for communities affected by or at risk of displacement. Facilitating pathways for regular migration: To address this pursuit, IOM prioritizes whole-of-government, whole-of-society approaches to safely connect people, goods, services, knowledge and innovation.</p>
IQVIA	<p>IQVIA is a Contract Research Organisation (CRO) specialising in real-world evidence generation. We primarily conduct retrospective cohort studies to address critical questions on disease burden, treatment patterns, and clinical outcomes across diverse therapeutic areas. In addition to observational research, we deliver primary data collection studies and evidence synthesis, integrating trial data and real-world data to perform indirect treatment comparisons. Our work supports healthcare decision-making, regulatory submissions, and market access strategies.</p>
J-PAL Africa	<p>The Abdul Latif Jameel Poverty Action Lab (J-PAL) is a global research center working to reduce poverty by ensuring that policy is informed by scientific</p>

	<p>evidence. Anchored by a network of more than 1,100 researchers at universities around the world, J-PAL conducts randomized impact evaluations to answer critical questions in the fight against poverty.</p> <p>J-PAL Africa is headquartered at the University of Cape Town and works across sub-Saharan Africa.</p>
Knowledge for Change	<p>Knowledge for Change (K4C) is a UK registered charity linked to the University of Salford, running a diverse portfolio of international development and global health related programmes. We maintain a strong focus on ethics and sustainability to strengthen local health systems, primarily in Uganda and Tanzania, whilst also realising reciprocal benefits for the UK NHS. Most of our interventions aim to build health worker capacity by exchanging valuable knowledge, skills and experience between the UK and our LMIC partners. Our 'Professional Volunteering Programme' is integral to our charitable activities and to-date has placed over 750 UK medics, nurses, midwives and AHPs.</p>
Medecins sans Frontieres (Doctors Without Borders) UK	<p>MSF is an international humanitarian organisation providing medical care in more than 70 countries. Médecins Sans Frontières / Doctors Without Borders (MSF) is world-renowned for working in conflicts, epidemics and natural disasters – the humanitarian events that hit the headlines. However, we also run long-term projects – some of which stretch over decades – helping people caught up in complex and under-reported healthcare emergencies.</p>
P95	<p>P95 is a leading global provider of comprehensive clinical trial services, epidemiology, and real-world evidence solutions, with a specialized focus on vaccine and infectious diseases. Headquartered in Belgium, with regional hubs in five continents, we provide tailored clinical research solutions across 40 countries. Our commitment to flexibility, client focus, and excellence drives us to deliver solutions that make a meaningful impact on public health worldwide. Founded in 2011, we offer full-service CRO capabilities, including clinical operations, study design, data management, and biostatistics. Our mission is to be the world's favoured partner in the field of clinical research and epidemiology in support of vaccine development and use. With 300 staff and over 25 years of collective experience, we serve clients ranging from non-profit organizations to pharmaceutical and biotech companies throughout all stages of clinical development and post-marketing.</p>
Royal College of Paediatrics and Child Health (RCPCH)	<p>The Royal College of Paediatrics and Child Health (RCPCH) is the membership body for paediatricians in the UK and around the world, leading paediatric postgraduate medical education, professional standards, research and policy. RCPCH Global is the team within RCPCH focussing on global health. It partners with paediatric organisations in low and lower-middle-income countries to improve frontline clinical care and reduce maternal, newborn and child morbidity and mortality in hospitals and health centres across Asia, Africa and the Middle East.</p>

Royal Society of Tropical Medicine and Hygiene	The Royal Society of Tropical Medicine and Hygiene is a charity and membership society that has been dedicated to improving tropical medicine and global health since 1907.
Terre des hommes	<p>As the leading Swiss organisation for children's rights, created in 1960, the Terre des hommes foundation is committed to protecting children's lives and their rights, and improving their well-being. We aim to do so through innovative programmes focused on health, migration and access to justice, specially designed to have both short- and long-term impacts.</p> <p>For more than 60 years, we have been working in difficult situations, in countries at war, regions devastated by natural disasters, and places where poverty and malnutrition force millions of children and their families to migrate elsewhere. We provide direct and indirect support to millions of children, their families and communities in around thirty countries every year.</p>
UKHSA (UK health security agency)	<p>UK Health Security Agency (UKHSA) prevents, prepares for and responds to infectious diseases and environmental, radiological and chemical hazards, to keep all our communities safe, save lives and protect livelihoods.</p> <p>We provide scientific and operational leadership, working with local, national and international partners to protect the public's health and build the nation's health security capability.</p> <p>UKHSA is an executive agency, sponsored by the Department of Health and Social Care.</p>
