

Attending Organisations for In-Person Careers Networking Event, 5th May 2026

NAME	DESCRIPTION
Adelphi Values PROVE	Adelphi Values PROVE provides market access and HEOR support throughout the product lifecycle from early strategic landscaping, through evidence generation, health economics and impactful value communication – we are always focused on robust evidence and data.
Aquarius Population Health	Making the best choices in healthcare can be difficult and confusing. We develop creative ways to explore problems and provide the insight our clients need. At Aquarius Population Health, we like to make things simple. Our strengths range from economic evaluation including costing studies, budget impact models, Markov and dynamic modelling, to patient-level statistical analyses, qualitative research, HTA submissions and medical writing. We can design easy-to-use costing and modelling tools, and we have worked across a wide range of disease areas. We work with pharmaceutical and diagnostics companies, academia, charities/NGOs, government and healthcare providers - both in the UK and globally.
Ashanti Development	<p>Ashanti Development (AD) is a charity which was set up in 2005, when London-based Ghanaians asked their friends and neighbours for help to improve the lives of people in their home villages in Ghana.</p> <p>We are looking for healthcare/allied professionals to volunteer at Mampong Government Hospital and/or one of the five community clinics (including a dedicated eye clinic) which we have built and/or with local district Public Health Teams The charity also has other work strands including water and sanitation (WASH), education and livelihood support (including farm support and microcredit) in 100 villages in the area.</p> <p>Ashanti Development’s headquarters are in the village of Gyetiase, some 3km distant from Mampong which is where volunteers stay, The village has changed little over the centuries but now has electricity and internet connection. The community and the AD Ghanaian team of Nicholas, Christobel and Martha welcome volunteers & do all they can to help.</p> <p>Why volunteer with Ashanti Development? We can offer diverse opportunities and experiences in a LMIC You can make a difference to individuals and communities You will be well supported and safe</p> <p>http://ashantidevelopment.org</p>
AstraZeneca	AstraZeneca is UK's largest pharmaceutical company and one of the world's largest. I lead the team of pharmacoepidemiologists who support AZ's post authorisation safety studies.
Cambridge Economic Policy Associates (CEPA) Ltd	CEPA is an economic and financial policy consulting business. We advise both private and public sector clients on key issues within public policy. Over the last 15 years, CEPA's Global Health team has gained a wealth of knowledge and expertise across a number of health areas which we apply at both global and country levels. These include: epidemics and pandemics (e.g. COVID-19, cholera) and other communicable diseases such as HIV/AIDS, malaria, tuberculosis and hepatitis C; health and community systems strengthening; immunisation; maternal and child health; and sexual and reproductive health.

	<p>We also work in a number of cross-cutting areas such as health policy and governance, health financing, health data and information systems, commodity market dynamics and universal health coverage. Together, our breadth of experience has given us the knowledge and skills in a range of areas, especially to conduct complex evaluations, provide high-level technical advisory and strategy support and undertake health impact modelling. We conduct short, medium and long- term assignments, with clients including global health partnerships, multi-lateral and bi-lateral agencies, donors and foundations, governments and international NGOs.</p>
Christian Medical Fellowship	<p>The Christian Medical Fellowship unites and equips Christian doctors and nurses to live and speak for Jesus Christ. We were formed in 1949. We currently have 4,000 doctors, 500 medical and nursing students, and 450 nurses and midwives as members.</p>
Doctors with Africa Cuamm	<p>Doctors with Africa CUAMM is the first healthcare-focused NGO officially recognized by Italian authorities. Founded in 1950 with the aim of training doctors to work in developing countries, CUAMM is working in Angola, Central African Republic, Ethiopia, Ivory Coast, Mozambique, Sierra Leone, South Sudan, Tanzania and Uganda, promoting long-term health cooperation projects and intervening also in emergencies to ensure that services are available to all.</p> <p>The NGO supports public and non-profit hospitals, local districts, schools of nursing and midwifery, university faculties of medicine.</p> <p>CUAMM's international and national staff work together on the front line to strengthen local health systems.</p>
Genesis Analytics	<p>Genesis Analytics: Impact at Scale</p> <p>Genesis is an African-founded impact firm dedicated to unlocking the potential of the Young World, home to 4.2 billion people across Africa, the Middle East, and South Asia. We don't just plan; we deliver impact at scale by navigating five critical transitions: human capital (health and nutrition), economic, AI, urban, and climate. We work across the entire impact chain, from diagnostics and solution design to implementation in challenging environments. Join us in shaping the world's fastest-growing workforce.</p>
Herspiegel	<p>Herspiegel Consulting is a global life sciences consulting firm based in Pennsylvania, USA that advises pharmaceutical, biotech, and medical device companies on how to successfully bring and commercialise new therapies. We specialise in product launch strategy, market access, medical affairs, marketing, and patient services, helping clients navigate the path from early asset strategy through to commercial launch and market optimisation.</p>
IQVIA	<p>IQVIA is a global health research and data science organisation that works at the intersection of healthcare, science, and analytics. We use large-scale healthcare data alongside biostatistics, epidemiology, and real-world evidence to explore important clinical and public health questions. By working with industry, academia, and health systems, IQVIA helps turn data into practical insights that support research, inform policy and regulation, and improve patient care worldwide.</p>
Knowledge for Change	<p>Knowledge for Change (K4C) was registered with the Charity Commission for England and Wales in January 2012 (no. 1146911). Our charitable objectives are to improve the standard of healthcare and education provision for the poorest members of society in low- and middle-income countries (LMICs). For over 17 years, we have been working across multiple public hospitals and health centres in Uganda and Tanzania to incrementally and sustainably</p>

	<p>improve health systems and achieve better standards of care for patients. The work we do includes running programmes along the lines of our 'Co-Presence Principle', placing UK-trained and NHS-registered professional volunteers to work alongside our in-country K4C healthcare staff and partners to facilitate exchange of knowledge between staff and services, staff training days and series, and capacity building activities.</p>
Merck Sharp & Dohme (UK) Ltd	<p>Merck Sharp & Dohme (UK) Ltd is an affiliate of a global pharmaceutical organisation focused on improving lives through medicines and vaccines. In the UK, MSD works in partnership with the NHS and public health bodies to help prevent disease and treat serious conditions, including cancer and infectious diseases.</p> <p>Roles in Health Technology Assessment (HTA) and wider market access support this work by helping decision-makers understand the value of new medicines and vaccines, and to secure timely access for patients through the development of strong evidence submissions. We would be keen to raise awareness for industry opportunities for future LSHTH graduates.</p>
Medecins sans Frontieres UK (MSF)	<p>MSF is an international humanitarian organisation providing medical care in more than 75 countries.</p> <p>We treat people caught in complex crises and chronic healthcare emergencies around the world.</p>
Novartis Pharmaceuticals	<p>Novartis is a global medicines company focused on reimagining healthcare to improve and extend people's lives. We research, develop, and deliver innovative treatments that help address serious diseases and support better health outcomes for patients around the world. As an employer, Novartis is committed to creating an inclusive workplace and widening access to careers in science, healthcare, and business. Through diversity, equity, and inclusion outreach, we aim to raise awareness of opportunities and support access for people from underrepresented backgrounds, helping build a workforce that reflects the communities we serve.</p>
Office of Health Economics	<p>With over 60 years of expertise, the Office of Health Economics (OHE) is the world's oldest independent health economics research organisation and a global thought leader and publisher in the economics of health, health care, and life sciences.</p> <p>We are a registered charity and an Independent Research Organisation that works to improve health care through pioneering and innovative research, analysis, and education.</p>
Roche Diagnostics	<p>Biotechnology and MedTech</p>
Royal Society of Tropical Medicine and Hygiene (RSTMH)	<p>"The Royal Society of Tropical Medicine and Hygiene is a charity and membership society that has been dedicated to improving tropical medicine and global health since 1907. Our ambition is to save lives and improve health around the world through increased access to and greater equity in global healthcare.</p> <p>Through our activities we help further our members' careers. We also harness their collective knowledge and expertise to achieve change within the sector. Our members, based in over 100 countries, are at all stages of their careers, working across a multitude of disciplines and from a range of sectors."</p>
The Health Foundation	<p>The Health Foundation is an independent UK charity dedicated to improving health and health care across the country. Its mission is to build a healthier population by reducing inequalities, supporting innovation in health and care services, and providing robust evidence to shape effective policy. The</p>

	<p>organisation funds frontline improvement initiatives, conducts research and analysis, and collaborates widely to drive system-level change. By focusing on high-quality, equitable care and the wider factors that shape health, the Health Foundation aims to create lasting, positive impact for communities and the NHS.</p>
Triangulate Health Ltd	<p>Triangulate Health Ltd is a health economics and policy consultancy focusing on access to medicines. We work with global multilateral organisations, private sector and NGO's to support strategic evidence generation and stakeholder engagement</p>
United Nations Population Fund (UNFPA)	<p>UNFPA is the UN's sexual and reproductive health agency. As the world's single-largest provider of donated contraceptives to developing countries, we enable people to choose whether and when to have children.</p> <p>We protect women from preventable maternal deaths by strengthening health systems, training and educating health workers and midwives, improving access to a full range of reproductive health services.</p> <p>We help eradicate gender-based violence and harmful practices, working with policymakers, justice and health systems engaging men and boys to advance gender equality and providing essential services to survivors.</p> <p>We work with governments to plan for changing population needs, creating policies that respond to current and future trends, helping populations thrive.</p>
